Důležitost: Vysoká

Hello,

I need a little help with one potential wire fraud.

I paid for 2 veteran cars Volvo P1800 in January 2022, but until now I am not able to get the cars from the seller and now for last 6 weeks he is not responding anymore. The seller is from Olympia WA, therefore I would like to ask you for help. I am sending entire communication thru iMessage with the seller, the invoice, bank wire confirmation, paypal confirmation and e-mails.

May I ask you to review the case and help me to sort it out? Maybe if just someone can check, if the seller is alive?

Looking forward to your reply

Have a nice day and kind regards from Czech Republic
